Gorgeous home, glorious setting! Enjoy nature from the wrap-around front veranda of this beautiful custom-built 2880 sq. ft. Cape Cod. The kitchen features custom cabinetry and a wonderful breakfast nook overlooking the tree-filled back yard. A vaulted cathedral ceiling awaits you in the family room, complete with an oversized wood-burning fireplace surrounded by built-in bookcases, all of which can be viewed from the catwalk hallway above. The downstairs master suite boats views of nature and dappled sunlight, with a huge walk-in closet and a scrumptious master bath with dual vanities, large shower and jetted tub. Fantastic is the wood used for the richly paneled game room over the breezeway-attached oversized 2-car garage (which could easily be converted to a fourth bedroom).
